- Quantitative Data: Provides scores that facilitate statistical analysis and tracking over time.

Structure of the Bass Body Image Questionnaire

The Bass Body Image Questionnaire typically consists of multiple sections, each targeting different facets of body image. While variations may exist depending on the version or adaptation, the core structure generally includes:

- Body Part Satisfaction Scale

- Assesses satisfaction or dissatisfaction with specific body parts (e.g., abdomen, thighs, arms).
- Uses Likert-type questions (e.g., from "Very satisfied" to "Very dissatisfied").

- Body Perception Scale

- Measures how individuals perceive their overall body size and shape.
